

Mrs. Wester's November News

What's happening in 3rd Grade?

We will be starting our United States projects in Social Studies. Each student will present their state project to the class in November.

In addition to our Nature Monday adventures, we are also learning about animals and ecosystems in science.

We are continuing in math with multiplication and division for 6s, 7s, and 8s. We are still doing rocket math, so please help your child study their flash cards at home. Students can also practice Scootpad at home to improve fact fluency.

We are working hard in reading! November's reading log is being sent home today. It is very important for students to read at home at least twenty minutes every night. The goal is 5 hours of reading per month. Reading logs are due by the end of the month.

We are pen pals with Mrs. Ness's third grade class from Hawthorne. We will meet our pen pals in the spring.

Thank you so much for all your support this school year. I have a great group of third graders this year!! As always, if you have questions or concerns please call or email me. My number is 324-1683 or email jwester@helenaschools.org.
